COMPANY

Mina, una storia di passione e di acciaio inox.

MINA è un'azienda familiare capace di unire con innata genuinità l'esperienza artigianale con il gusto per il progetto, la qualità industriale certificata e il legame con la materia prima.

Attiva sin dai primi anni 50, nel 1998 la scelta univoca di produrre rubinetteria esclusivamente in acciaio inossidabile.

L'AISI316L è tutt'oggi l'asse portante dello sviluppo aziendale: per MINA la materia migliore per proporre collezioni di rubinetteria di alta gamma destinate alla cucina e al bagno, spaziando tra complementi e accessori tutti rigorosamente realizzati in acciaio inox.

Eccellenza e passione artigianale si coniugano con la vocazione a seguire personalmente e con attenzione ogni cliente. Per creare progetti su misura, che nascono dal dialogo diretto con l'azienda e riescono a soddisfare sempre le aspettative.

A story of passion and stainless steel.

MINA is a family business able to connect with innate genuinity the artisan experience with the taste for the project, the quality industrial certified and the link with the raw material.

Active since the early 50's, in 1998 the unique choice to produce taps and fittings made exclusively of stainless steel.

The AISI316L is still today the backbone of the company's development: for MINA the best material to propose collections of taps and fittings of high range intended for the kitchen and bathroom, ranging between complements and accessories all strictly made of stainless steel.

Excellence and passion for craftsmanship are combined with a vocation to personally and carefully follow each customer. To create custom-made projects, which are the result of direct dialogue with the company, and are always able to meet expectations.

Une histoire de passion et d'acier inoxydable.

MINA est une entreprise familiale capable de conjuguer l'authenticité innée à l'expérience artisanale avec le goût pour le projet, la qualité certifié industriel et le relation avec la matière première.

Actif depuis le début des années 50, en 1998 le choix unique de produire robinets et robinetterie exclusivement en acier inoxydable.

L'AISI316L est encore aujourd'hui la colonne plus importante du développement de l'entreprise : pour MINA le meilleur matériel pour proposer des collections de robinetteries de gamme haut destinée à la cuisine et à la salle de bains, qui va de la compléments et accessoires tous strictement en acier inoxydable.

L'excellence et la passion de l'artisanat se conjuguent à la vocation de suivre personnellement et attentivement chaque client.

Pour créer des projets sur mesure, issus d'un dialogue direct avec l'entreprise, et sont toujours en mesure de répondre aux attentes.

MINA progetta intorno all'acqua.
Rubinetteria da bagno e da cucina, ambienti domestici o prestigiosi contract, ma anche soluzioni passepartout che trovano spazio in contesti wellness o in progetti outdoor.

MINA designs around water.
Bathroom and kitchen taps, domestic spaces or prestigious contracts, but also passepartout solutions that find space in wellness contexts or in outdoor projects.

MINA dessine autour de l'eau.
Robinetterie de salle de bains et de cuisine, espaces intérieurs ou contrats prestigieux, mais aussi des solutions passepartout qui trouvent leur place dans des contextes de wellness ou dans des projets de plein air.

MINA è esperienza, voglia di sperimentare e capacità di seguire il progetto in ogni aspetto evolutivo. L'idea nasce in MINA, qui viene sviluppata, analizzata e realizzata seguendo tutte le fasi di produzione.
Rigorosamente Made in Italy: made in MINA.

MINA is experience, determination to experiment and ability to follow the project in every evolutionary aspect. The idea was born in MINA, here it is elaborated, analyzed and realized following all the production phases.
Strictly Made in Italy: made in MINA.

MINA, c'est l'expérience, la volonté d'expérimenter et la capacité de suivre le projet dans tous ses aspects évolutifs. L'idée est née à MINA, ici elle est élaborée, analysée et réalisée en suivant toutes les phases de production.
Strictelement Made in Italy : made in MINA.

Ascolto, contatto diretto con il cliente, soluzioni personalizzate, flessibilità produttiva, servizio post vendita.
Un servizio speciale firmato MINA, dedicato interamente a chi progetta.

Ability to listen, direct contact with the customer, customised solutions, production flexibility, after-sales service.
A special service signed MINA, completely dedicated to the designer.

Ecoute, contact direct avec le client, solutions personnalisées, flexibilité de production, service après-vente.
Un service spécial signé MINA, entièrement dédié à ceux qui dessinent.

INOX perchè è resistente alla corrosione.
INOX perchè è igienico e sicuro.
INOX perchè è riciclabile al 100%.
MINA è INOX, ma non solo per le parti estetiche, lavorate per esaltare la superficie dell'acciaio.
In MINA ogni pezzo, anche se destinato ad essere nascosto all'interno della parete, è ricavato integralmente da una barra di acciaio inossidabile AISI316L, per garantire nel tempo un valore di alto livello di utilizzo e di integrità delle proprietà.
La scelta di un materiale di pregio, inalterabile e sano per quelle parti del miscelatore che andranno incassate a muro è una scelta di campo che condiziona, in maniera silenziosa e invisibile, le prestazioni di un miscelatore da incasso.
E' la scelta di MINA.

INOX because it is resistant to corrosion.
INOX because it is hygienic and safe.
INOX because it is 100% recyclable.
MINA is INOX, but not only for the aesthetic parts, worked for to enhance the surface of the steel.
In MINA every piece, even if it is intended to be hidden inside the wall, is fully obtained from a bar of AISI316L stainless steel, to guarantee over time a value of high level of use and integrity o properties.
The choice of a high quality material, unchanged and healthy for those parts of the mixer that will be built-in to the wall is a choice of field that conditions, in a silent and invisible way, the performance of a built-in mixer.
It's the choice of MINA.

INOX pour sa résistance à la corrosion.
INOX parce qu'il est hygiénique et sans risque.
INOX parce qu'il est recyclable à 100%.
MINA est INOX, mais pas seulement pour les parties esthétiques, travaillées pour pour valoriser la surface de l'acier.
En MINA, chaque pièce, même si elle est destinée à être cachée, à l'intérieur du mur, est entièrement sculptée à partir d'une barre de acier inoxydable AISI316L, pour garantir dans le temps une valeur de niveau élevé d'utilisation et d'intégrité des propriétés.
Le choix d'un matériau précieux, inaltérable et sain pour ceux qui le désirent des parties du mélangeur qui seront encastrées dans le mur est un choix de qui conditionne, de façon silencieuse et invisible, le processus de la d'un mélangeur à mur.
C'est le choix de MINA.

Synth parte da un concetto basilare: il controllo dell'acqua attraverso il comando del rubinetto, un cilindro in acciaio inossidabile arricchito da incisioni ed incavi, che permettono di dosare perfettamente l'energia del movimento. La temperatura e la portata sono come il volume e il tono di una melodia, occorre regolarli con cura per raggiungere il comfort ideale, per armonizzare l'acqua.

Synth is the starting point: the handle provides water control. It is a stainless steel cylinder enriched with incisions and grooves which allow to regulate movements. Water temperature and flow rate are like volume and melody tone. They should be carefully regulated to reach the ideal comfort.

Synth

Synth part d'une idée fondamentale : le contrôle de l'eau à travers le commandement du robinet, un cylindre en acier inoxydable enrichi par gravures et creux, qu'ils permettent de doser l'énergie du mouvement parfaitement.
La température et le débit sont comme le volume et le ton d'une mélodie ; il faut le régler avec soin pour atteindre le confort idéal pour harmoniser l'eau.
